Item 8.01 Other Events.

As previously reported in Westlake Corporation's (the "Company" or "Westlake") periodic filings under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the Company and other manufacturers of polyvinyl chloride (PVC) pipe and fittings have been named as defendants in ten putative class action civil lawsuits filed in Illinois between August 2024 and June 2025 (the "PVC Pipe Antitrust Litigation"), which generally allege that PVC pipe and fittings manufacturers conspired with each other and an industry publication (OPIS) to fix, raise, maintain and stabilize the prices of PVC pipe and fittings in the United States, resulting in the plaintiffs paying artificially high prices for PVC pipe and fittings. Each of the lawsuits is filed on behalf of the respective named plaintiff or plaintiffs and a putative class comprised of either direct purchasers, non-converter seller purchasers or end-users of PVC pipe and fittings in the United States. As previously disclosed, the Company and the direct purchasers entered into a settlement agreement, which the court approved, pursuant to which the Company paid $67 million to the direct purchaser settlement class.

On November 17, 2026, the Company and the non-converter seller purchasers (the "NCSPs") entered into a settlement agreement (the "NCSP Settlement Agreement") relating to the PVC Pipe Antitrust Litigation. The Company also entered into a settlement agreement (the "End-User Settlement Agreement") with the end-user class plaintiffs (the "EUCPs") on November 17, 2026 related to the PVC Pipe Antitrust Litigation. On November 19, 2026, the NCSPs and EUCPs filed motions for preliminary approval of the NCSP Settlement Agreement and the End-User Settlement Agreement, respectively. Subject to the satisfaction of certain conditions, including receipt of preliminary and final court approval of the settlements, the Company has agreed to pay $119.5 million to the NCSP settlement class and $79.5 million to the end-user settlement class, and each of the NCSP settlement class and the end-user settlement class has agreed to release Westlake from certain claims relating to the PVC Pipe Antitrust Litigation. Both settlement agreements provide that such settlements shall not be deemed or construed to be an admission of liability or wrongdoing by any party. The Company expects to incur a pre-tax charge of substantially all of the settlement amounts set forth herein during the fourth quarter of 2026.
